

Questions from Parish Meeting

1. *"With regard to the zebra crossing, will the new entrance and increased traffic cause any problems for pedestrians?"*

2. *"Will the two-and-a-half storey buildings be taller than the other buildings?"*

3. *"If the scheme is to be for the over 55's, this would not offer a balance of accommodation for the village encouraging younger people, and families into the village. The 2001 census profile of the village indicated that 30% of the village are over 60?"*

4. *"There are no garages shown on the site, so where will refuse bins be stored?"*

5. *"Are you able to provide nest boxes for swallows and local wildlife?"*

6. *"Will the plans be made available for viewing outside of the parish meeting?"*

7. *"(The owner of) No. 7 Church street where the wall forming the boundary between HRL property and my property is in need of repair – although i would not like to remove the 16th century wall, and would be against any form of separate fence as this would make future maintenance difficult. Peacocks have installed a similar fence at the rear of my property which i am not happy with."*

8. *"Are HRL able to arrange for a site visit, where interested locals are able to walk around the site and be talked through the scheme?"*
